Calving ease:

Paul Red is a product of US paternal and Canadian maternal bloodlines. From the paternal sire Kreol Red (RBV 113 based on more than 120 progenies) is coming very good maternal genetic. Very good muscularity is transmitted from maternal side bull Red Lazy Hobo, who was imported from Canada. Paul Red breeds his progeny with frame and growth potential as well as good conformation. Paul Red is very good for using in matting with heifers because his calves are born easily.

PAUL

Exterior evaluation

Conformation			Body capacity			Muscularity			Breeding type	Total
VT	DT	HM	PŠ	HH	DZ	PL	HŘ	ZÁ		
9	8	10	6	7	6	6	6	6	7	71

Explanatory note:

VT - height, DT - length, HM - weight, PŠ - chest width, HH - chest depth, DZ - pelvis length, PL - shoulder, HŘ - top line, ZÁ - Thigs
